Historical

BREVARD INSTITUTE is the outgrowth of the Brevard Epworth School, founded in 1895 by Rev. Fitch Taylor, and aided by the Leagues and Sunday Schools of the Western North Carolina Conference of the M. E. Church, South. The school and the conference suffered a great loss when Mr. Taylor died in Brevard, March 16, 1909. His life was a benediction to all who knew him.

Due to the lack of sufficient financial support, Mr. Taylor ran his school under disadvantages. The enterprise was finally suspended and remained dormant for two years. The Board of Trustees at last offered to finish and furnish the school building and to turn the property over to the Woman's Home Mission Society of the same Church. The proposal was accepted, and the enterprise passed into the hands of the women in June, 1903, E. E. Bishop being made principal. On October 20th, the school was opened with an enrollment of fifty students, two of whom were boarders. The house was enlarged the second year to accommodate increased patronage, and the school grew steadily year by year.

In 1907, the Woman's Board needed the services of Mr. Bishop to put on foot their Vashti Home. Mr. C. H. Trowbridge was elected to take his place, and served faithfully and efficiently until 1923, when he resigned and was elected President of Weaver College. His successor, Mr. O. H. Orr, accomplished much during the next four years in the way of placing the school upon a secure basis, both financially and educationally; he resigned in 1927 to become cashier of the Pisgah Bank of Brevard.

TAYLOR HALL FOR GIRLS

Announcements 1928-29

We derive a great deal of satisfaction in being able to announce the following benefactions for the year:

P. H. HANES SCHOLARSHIP

The P. H. Hanes Scholarship is an endowed scholarship in the amount of \$3,000. The donor is Mrs. S. Douglas Craig, of Winston-Salem, who gives the scholarship in memory of her father, P. H. Hanes. The gift comes through the North Carolina Division of the United Daughters of the Confederacy, Mrs. J. S. Welborn, of High Point, Education Chairman for the State, having negotiated the deal. Brevard Institute acknowledges obligation to both Mrs. Craig and Mrs. Welborn for this fine gift.

This scholarship yields approximately \$130 per year, and is awarded to some boy, descendant of a Confederate veteran, whom the U. D. C. chooses after investigation of his circumstances and his worth. The recipient for 1928-29 is Mr. Woodrow Guthrie, of Wilkesboro.

Applications for this scholarship will be received through the office of the Superintendent.

GRAND PIANO

The largest single item in our list of miscellaneous donations for the year comes from Mr. H. A. Dunham, of Asheville. Mr. Dunham contributed \$525 toward the purchase of a grand piano for San Angelo Chapel.

LOAN FUND

The Men's Bible Class of Central Church, Asheville, has this year inaugurated a loan fund, to be used for the benefit of worthy students. Their contribution this year was \$150, and it is our understanding that they expect to add to it from time to time. The money is loaned without interest to worthy students, and is to be repaid after leaving school. It then becomes available for some one else, thus operating as a permanent benefaction. We respectfully submit that contribution to this fund would be a fine opportunity for other classes, organizations, and individuals to perpetuate the benefits of their efforts and influence.

THE RALPH H. ZACHARY MEDAL

The Zachary brothers, Jack and Ralph H., Jr., have announced that they will donate annually, in honor of their father—Mr. Ralph H. Zachary, Sr.—a medal to be awarded to the student at the Institute who makes the highest average for the year in Mathematics.

The elder Mr. Zachary died in Brevard on April 18, 1928. He was a man rather widely renowned for his attainments in mathematics, and was always enthusiastic in any plan for furthering general interest in the subject. In thus honoring their father, these young men are accomplishing more than simply lauding his name, for the thing they are doing has its highest significance in the fact that it not only honors the past, but operates as a stimulus for attainment in the future.

ENTRANCE TO MAIN BUILDING

WINNERS OF MEDALS, 1928

The winner of the R. Y. Neel Medal this year was Mr. Clyde E. Clark of Flat Rock, a member of the Lanier Society. This medal is donated annually by Mr. R. Y. Neel, of Brevard, for the winner of the inter-society contest in declamation.

The Mabel Jetton Medal was won by Miss Eugenia Wells, of Brevard, member of the Ross Society. This medal, donated by Miss Mabel Jetton, of Santa Maria, Brazil, is annually awarded to the winner of the inter-society contest in reading.

**ANNUAL SOCIETY CONTEST IN ATHLETICS
AND LITERARY EVENTS**

One of the traditions at the Institute is the annual contest in Athletics and Literary Events between the two sets of brother and sister Literary Societies.

The contest for 1927-28 was held on November 5 and 6, and was won by the Ross and Taylor Societies. The Adelphian and Lanier Societies put up a worthy fight and lost by the narrow margin of two points.

SCIENCES

Especial attention is called to the new arrangement and wide variety in Science courses offered. Most high schools, with an enrollment of 200 or less, employ only one science teacher. By combining Sciences with the related fields of Manual Arts and Home Economics, we are able to offer practically every high school science. Moreover, each science course is provided with two extra laboratory periods per week, which are required to give a full unit of credit on the course instead of only the half-unit credit allowed for five recitation periods per week. The schedule is so arranged as to avoid conflicts, if the student's work is not scattered over several grades.

We recommend that you study the "Program of Studies" and the schedule, and have in mind the work you wish to take when you come to enroll. Keep your course as nearly regular according to grades as possible. Bring or send record of previous work, and if there are changes necessary, we will recommend them when you enroll.

THE "GREEN FLASHES," 1927-28

The Purpose of the School

The purpose of Brevard Institute is clear cut. We endeavor to give educational advantages second to no school in our class, but at much less than the usual and actual cost. This is made possible by reason of the support we receive from the Missionary Council, enabling us to care for many boys and girls who would otherwise be unable to pay for such advantages.

For this reason we cannot dissipate our efforts upon those who are not worthy of such benefits. We positively do not accept pupils of bad habit or character, and parents sending such in the hope that we may reform them are laying themselves liable to the humiliation of having them dismissed. An incorrigible boy or girl exerts a demoralizing influence on the entire group. Neither can we take those in poor health. Our mission is to that large and most respectable and sensible group who, though unable to pay the usual expenses of boarding school, are nevertheless eager for the advantages of an education and for the inspiration of the environment found in the cultured atmosphere of a Christian school, an inspiration emanating largely from daily life and contracts such as the public cannot supply.

We cater especially to the following classes:

1. Those who may not see their way clear to go to college, and who desire brief technical and vocational courses as a preparation for life.
2. Those who do not have adequate educational advantages at home.
3. Those who are especially interested in training themselves for distinctively Christian leadership and service. The Church is spending much money at Brevard, and the school is in return trying to do the distinctive work of the Church in this line. Our Bible courses and the influence we strive to exert are directed to the double purpose of furnishing such training to those who desire it, and of creating the desire in those who have it not. We especially strive to impress the fact that the spirit of true democracy inheres to the genuine sort of Christianity, while prudishness and snobbery have no part in it. No one is excused from enrollment in one of the Bible classes.
4. Those who for reasons, grounded perhaps in no fault of their own, are at disadvantage for lack of opportunity, and are anxious to help themselves. Our plan makes it possible for about twenty such boys and girls to pay their entire expenses each year by their own work, provided they are thoroughly industrious and reliable.

In as much as we are not able to take care of all such applications, opportunity is given many societies, churches, and even individuals to take advantage of our exceedingly low rates in helping some worthy boy or girl of their community to prepare for a life of usefulness and honor.

OWNERSHIP AND GOVERNING POLICY

Brevard Institute is owned and operated by the Woman's Missionary Council of the Methodist Episcopal Church, South. It has also received large benefactions from the Western North Carolina Conference of the same Church, and feels keenly its responsibility to both organizations. It feels that the church universal has the right to expect returns in the form of Christian young people with at least some degree of training for aggressive church work. Consequently it makes Bible study a part of its regular course of study, and encourages practice in many forms of Christian leadership. This includes Epworth League work, Sunday School work, leading prayer meetings, singing and playing hymns, etc. At the same time it impresses constantly upon all students that these activities are in themselves only external, and that real Christianity manifests itself in consistent living, in straightforwardness, and in unselfish service. Our religious instruction is non-sectarian.

ADVANTAGES

Brevard, North Carolina, is in the famous health region near Asheville, and is called, "The Gate to the Sapphire Country." The Institute occupies one hundred and eight acres of land in and adjoining the corporate limits of the town. On this property are Spencer Hall, containing accommodations for the literary and vocational departments; Taylor Hall, which is the new and modern dormitory for girls; the old dormitory, containing accommodations for the dining hall and kitchen, infirmary, laundry, and piano practice rooms; Fannie Ross Hall, a dormitory for boys; Manual Training building, four cottages, and a large barn. All the large buildings are steam heated, and the entire plant is lighted by electricity, and connected with the city sewer and water system.

DIVERSIONS

Keeping in mind the pedagogical fact that education should train the entire being, and not the intellect only, Brevard Institute students are encouraged to participate in literary society work and in athletics, to take part in mountain climbs, to use liberally the library and reading table, and to attend the lyceum course. Grafonola lectures to train musical taste are given frequently. A good moving picture machine was installed in 1921, and it is frequently used. A Radio with a loud speaker was installed in San Angelo Chapel in March, 1924. Students meet occasionally in receptions and parties, supervised by teachers.

There are four literary societies, the Adelphian, the Lanier, the Taylor, and the Ross. Each student is expected to become a member of one of these societies, as a considerable part of school life is connected with them. Each society will be expected to give, at least once each term, a program which will be open to the public.

For outdoor sports, the students play basket ball, baseball, tennis, etc. Occasionally hikes are taken to some of the nearby waterfalls or mountain peaks.

LIBRARY AND READING TABLE

The library consists of about twenty-two hundred volumes. It con-

tains several reference works, among them being the Standard Dictionary; Bible Dictionary and Encyclopedia; such encyclopedias as Hill, Johnson, the Britannica, Household Economics, and the Nelson Loose-Leaf; also Ridpath's History of the World, and about two thousand volumes of our choicest standard literature.

The reading table contains several of our best weekly and monthly periodicals, such as Delineator, Youth's Companion, Christian Herald, Ladies' Home Journal, Literary Digest, Century, Review of Reviews, Forum, Good Housekeeping, American and others.

EXPENSES

The schedule of fees is found on page ——. All boarding students are required to pay the matriculation fee of \$2.00 upon application for entrance. If the application, for any unsatisfactory reason, is withdrawn prior to August 15, 1928, the matriculation fee will be returned. Tuition, according to the schedule, is payable each term in advance, and laboratory fees upon enrollment for the course. The campus fee, payable at registration, covers the cost of medical attention for ordinary sickness, including services of school physician; light, fuel, culture course, membership in the athletic association, and incidental and library fees.

Day students pay matriculation fee, tuition, and incidental and library fee at registration.

(See also Industrial System).

It has been the custom in the past for the school to furnish linens, but this costs heavily in proportion to the value of the service rendered. Few students will feel the burden of supplying their own linens; therefore this custom is to be dispensed with. For the year 1928-29, however, we will continue to furnish pillow cases and towels, having a supply of these on hand. We will not furnish sheets, and each student should bring four, full length, three-quarter width. Our beds are single beds. All linens should be plainly and indelibly marked with student's name, and the linen passes weekly through the hands of the laundry supervisor who checks it. This insures a fresh, clean supply weekly, a necessity in the interests of sanitation.

INDUSTRIAL SYSTEM

All necessary school expenses, except for books and supplies, amount to approximately \$228 in the literary courses. Itemized they are as follows:

Board (nine months).....	\$180
Tuition (the year).....	36
Campus fee (the year).....	10
Matriculation fee.....	2

\$228

This figure makes no allowance for work. As far as is possible all the work about the buildings and grounds is done by students under the direction of the various supervisors. This work provides about twenty work scholarships and an additional number of partial scholarships, which are assigned each year to those whom we know to be

worthy and reliable, and really in need of help. Very often applications for such work are made by those who are ambitious to help themselves but who do not really depend upon such help for their education. Such ambition is laudable, but it would not be fair to deprive some worthy orphan boy or girl of his chance in life under such circumstances. Owing to the large number of applications received it is generally found necessary to reserve the best places for boys and girls who have proved their industry and their worth in their residence on the campus. For this reason it is suggested that every student coming to us for the first time, make every effort to secure enough backing in his home community to enable him to pay his way for at least half the first year. In this time he can prove his worth and make himself a place in the school community.

Brevard Institute does, however, endeavor to provide a certain amount of work for every boy and girl who really wishes to work. We do not compel those who are lazy and indolent to work, for the rest of us are too busy to spend our time trying to keep them at it. For such as these the full price of board and tuition is charged for the time they remain with us, usually not very long. The general atmosphere of industry about the place is, however, conducive to the inculcation of such habits in those who come here.

We do not recommend more than twenty hours work per month unless in case of financial necessity. This amount can be accomplished by working an hour a day or half a day on Monday, and still leave all the time necessary for play and recreation, which is the inalienable right of every boy and girl. Such work, paid for at the rate of 15c per hour on account, reduces the price of board to \$17.00 per month. Of course there are numerous calls for extra work especially at the busy season on the farm, and any really industrious boy (or girl) can get in a great deal more than the actual amount required. Any student who prefers to pay the full cost price for all expenses, may do so, with the approval of the Superintendent.

A small laboratory fee is charged in connection with the study of expression, music, commercial branches and all the sciences.

A course of lyceum lectures and entertainments is arranged for each year and all students are required to attend unless specially excused. The total cost to each student will not be more than \$2.00 for the entire course. The money invested in this training probably brings in as large returns in culture and broadmindedness as any similar part of the fees.

Since the school is operated without any margin for bad accounts, and solely for benevolent purposes, it cannot run on the credit system. All bills are payable in advance, as follows:

IMPORTANT

All tuition is payable in advance; board at \$20.00 per month is due in advance but work done about school or farm is credited against the board bill at the rate of 15c per hour. We do not recommend that a student do more than 20 hours work per month, unless in case of financial necessity. This amount of work reduces the cost of board to \$17.00 per month, and still leaves time for play and recreation such as any growing child craves and needs.

Students working their way through school, or working for any considerable portion of their expenses, must bear in mind the fact that the school must have returns for the expense incurred, and that favors they receive necessarily obligate them to work at times while others may be playing.

Any student who cares to pay full expenses, will of course be excused from work. Be sure to specify the amount of work you wish to do on your application blank. Any student who persistently lags behind or shirks on work assigned, will be charged with board at the full rate.

GYM CLASS, 1927-28

DRESS FOR GIRLS

It is not only the privilege, but the duty of every individual to present a good appearance. There is sometimes, however, a difference of opinion and taste in these matters, and the judgment of the Dean of girls is final authority in the school.

Excessive use of cosmetics is poor taste and is not permitted.

High heeled shoes (spikes) are detrimental to proper physical development and are not allowed except on rare special occasions, such as public performance, (concert and otherwise) and then only with special permission. Every girl should have at least two pairs of substantial, comfortable shoes for school and street wear.

Silk dresses are not permitted for ordinary school wear.

No uniform is required. If so desired, however, by special arrangement with one of the local stores we are in position to supply a neat, stylish, but durable, blue serge coat suit, suitable for any public occasion at a very moderate price.

Rain coat, umbrella, and heavy top coat for cold weather should be brought from home or provided for. Each girl should have an adequate supply of work aprons.

All clothing and linens are subject to inspection.

In the interests of sanitation, borrowing and lending of clothes and linen is absolutely prohibited. Serious skin infection may result from violation of this rule.

Expensive, gaudy or flashy dress is not countenanced at any time. The judgment of the Dean is considered final on these matters.

Boys

Each boy should be provided with clothes sufficient for a neat appearance in school and elsewhere in public. Expensive clothes are not necessary. In addition, he should have a supply of rough wear for work, hikes, and play.

AERIAL VIEW, FANNIE ROSS HALL FOR BOYS

Departments

In addition to the regular literary work, grades 7 to 11, preparatory to college entrance, the Institute offers thorough courses in all Commercial branches, music, instrumental or vocal, Home Economics, Manual Training, and vocational Agriculture. Work in any of these departments, if of satisfactory nature, may be counted for High School credit. Our large, well equipped farm, offers unusual advantages for practical demonstration work in agriculture. Special classes may be organized if there is sufficient demand for them, for short courses in dairying, printing, and farm accounting.

We maintain a department doing elementary work of the seventh grade, because of the fact that there are always some who come up expecting to do High School work and prove incapable of it without additional preparation. We also admit those who are really prepared to do work of the seventh grade, but we assume no responsibility for keeping them if they prove incapable of doing such work. It is necessary to adhere strictly to this rule, else we would soon have pupils scattered all through the work of all the grades, a task we cannot undertake.

THE DEPARTMENT OF BIBLE STUDY

We feel that the Department of Bible Study is one of the most important phases of our work. It is the field in which we do a distinctive work, a work not offered in the public schools. From the students in this department, and similar ones in other schools, must be recruited the Christian leadership of tomorrow.

Persuaded by observation and experience, that actual knowledge of Biblical content is one of the crying needs of the young people of today, the first two years of the High School course are given to a selective study of the materials making up the Old and New Testaments. Very little effort is spent upon interpretation. The course of study used is that prepared by the Committee on Correlation of Bible work in Secondary Schools and Colleges, of the National association of Biblical Instructors, prepared for Secondary Schools offering a unit of Bible for College Entrance. It is procurable in pamphlet form at a very moderate price.

The general aim of the course is to "enable students to know the principal narratives and characters of the Bible in their historical and social settings. To understand and assimilate the thought, and to feel the beauty and spiritual inspiration of the Biblical masterpieces."

The third and fourth years are devoted to a study of the origins, nature, and true applications of Christianity as a regenerative force. These courses are of necessity more interpretative than those of the lower grades, but the interpretation is neither of a denominational nor controversial type.

BREVARD INSTITUTE

The courses have been designed with the expectation that the largest benefit will be derived by the student who begins with the first course and follows them through. However, each course is an entity in itself, and properly completed, will prove well worth the time and effort expended upon it.

BUSINESS DEPARTMENT

Miss Earleene Poindexter, Director.

For the Business Diploma in addition to the general requirements a student will elect three units and take the following work:

Stenography B—Shorthand and Typewriting, 1 unit.

Bookkeeping C—Wholesale, Partnership and Corporation, 1 unit.

Commercial Law—Three hours.

Theory in Bookkeeping—Two hours, $\frac{1}{2}$ unit.

Letter Writing C f—Spelling, punctuation, capitalization, arrangement, and dictation of business letters. Two months.

Office Practice and Supervision C—Stenography, eight weeks. Bookkeeping eight weeks. Teaching and Dictation, twenty weeks.

HOME ECONOMICS DEPARTMENT

Miss Marjorie Beaird, Director.

First Year

Foods—1. Food study and Cooking.

Foods—2. Housewifery.

Foods—3. Gardening.

Foods—4. Dairying.

Foods—5. Poultrying.

Clothing—1. Choice, selection, care, cost, etc.

Clothing—2. Textiles and Laundering.

Clothing—3. Sewing.

Art—1. Drawing and Design.

Second Year

Foods—1. Food Study and Cooking.

Foods—2. Household Management.

Foods—3. Child Care and Home Care of the sick.

Foods—4. Dietetics.

Foods—5. Budgeting, Marketing and Menu Planning.

Foods—6. Art applied to the Home and its Furnishings.

Clothing—1. Mending, Darning and Patching.

Clothing—2. Cost and Care.

Clothing—3. Renovation.

Clothing—4. Drafting and Patterns.

Clothing—5. Costume Designing.

1. Sample Sewing can be completed in three of four months, one period per day. It consists of practice in plain sewing as follows: The running, back, half-back, combination, and catch stitches, feather, blanket and hemstitching hemmed and overhand patching the stocking darn for cloth button holes, tucking, gathering, seaming, felling, matching stripes, sewing on hooks and eyes, buttons, tape and mitering of corners.

Equipment: Scissors, needles, pins, thimble tape measure.

All girls in the cooking classes will be required to have white aprons and caps which may be purchased after they arrive.

MUSIC DEPARTMENT

Miss Julia Merritt, Director.

For the piano diploma in addition to the general requirements a student will elect three units and take the following work:

Harmony B—Elementary, 1 unit.

History of Music B—Early Musicians, $\frac{1}{2}$ unit.

History of Music C—Modern Musicians, $\frac{1}{2}$ unit.

Theory—1 unit.

Ear Training— $\frac{1}{2}$ unit.

Piano Playing—Three or four units as required to obtain results described below. Each unit is two recitations and five practice periods per week.

(Two units are allowed on the above work toward the High School diploma).

Exhibition and Supervision C—Preparation for public performance and assistance in preparing others.

For the Voice Diploma in addition to the general requirements a student will elect three units and take the following work:

Harmony B—As described under Piano Requirements.

Music History B and Music History C—As required under Piano requirements.

Voice Culture—Three units. As required to obtain results outlined below. Each unit is two recitations and eight practice periods per week.

Piano Playing—One unit.

Exhibition and Supervision C—Corresponding to requirements in Piano course.

Each term a public recital is given, in which all music students are expected to take part.

While no definite technical course has been arranged, the course varying with the needs of the individual pupil, the following or its equivalent will be required for graduation, a grade of at least "B" being required of all seniors.

PIANO

To play all major and minor scales readily and with reasonable facility.

To be able to identify all keys either from the page or from the keyboard.

To perform in satisfactory manner, both technically and interpretatively, three Little Preludes or Two-voiced Inventions of Bach, a Sonata by Haydn, Mozart or Beethoven, three representative studies from Czerny, Opus 740, and at least two pieces by modern composers. Seniors are expected to take part in the graduating recitals, performing all solo work from memory, and to take part in at least two ensemble numbers during the year.

VOICE

Provided there is sufficient demand there will be a class organized for the elementary study of voice, to meet once a week for which a charge of twenty-five cents a lesson will be made. This work will include tone-placing, breathing exercises, ear-training, part singing, solo singing, ensemble work; special vocal studies and instruction.

Individual lessons in this department will be available at the rates given in the schedule of fees. Such individual lessons will presuppose the completion of a year of study in Piano, and will involve breathing exercises, tone placing, development of throat freedom, the singing of scales, arpeggios, exercises and vocalizes carefully selected from Sieber, Concone, and Marchesi, and the singing of songs and ballads of simple style from representative composers.

GLEE CLUB

We generally have a splendid Glee Club. The Club for 1927-28 numbered boys and girls together, about forty-five. Considerable training is given in voice placement, ear training and part singing, and a fee of 25 cents per month plus cost of music used is charged for membership.

DEPARTMENT OF MANUAL ARTS

D. W. Rice, Director.

This department is this year being organized. A thoroughly competent instructor has been secured who will offer courses for high school credit. This department is being introduced for the benefit of all boys who enjoy working with their hands, and work in this field is recommended for all those who can fit it into their course. It is especially for the benefit of those boys whose minds have the mechanical turn rather than the abstract. A given amount of work is assigned and required to be completed for credit. The character of the work done is also considered.

Manual Training I. This is an introductory course in wood working, using at first hand tools, and progressing to the use of machines. Study of woods and grains is made, and there are various projects required to be completed.

Manual Training II. This course is a further development of skill in the use of tools, and also requires more difficult projects. Mechanical drawing and geometrical constructions are introduced. The aim is to develop independence and self-confidence in the pupil, through development of his own ability.

Course of Study

ELEMENTARY

A regular course of study is followed in the seventh grade, according to the outline recommended by the North Carolina Department of Education.

Text Books: Geography Book II: Brigham and McFarlane.
 Good English Book III: Elson-Marsh-Royster.
 History of the United States: Waddy Thompson.
 Arithmetic: Wentworth & Smith, Book II.
 Speller: Lippincott's Horn-Ashbaugh Spelling Book.

HIGH SCHOOL

To receive the High School diploma of graduation, the student must have completed sixteen units of regular high school work. A half unit in Bible for each year the student is in attendance at Brevard Institute is also a requirement.

The passing grade is 75. If deemed advisable, a grade of 65 on the first semester's work may be accepted as a condition, to be made up during the last semester. The average for the two semesters must be 75. A good grade made during the first semester positively cannot bring up a failure on the last semester's work. Such failure must be made up with extra work.

The minimum requirements for High School graduation in North Carolina are as follows:

English	4 units
History	2 units

Text: To be selected.

Bible IV. Christianity and the Social Order: 3 periods, 36 weeks.

The aim of this course is to follow that of Bible III. It is hoped that the pupil, with a knowledge of the true aim and purpose of Christianity, will be given an insight into the need and method of its actual application to social problems of today.

Text: Shackford: The Program of the Christian Religion.

Auxiliary: Rauschenbush: Christianizing the Social Order.

General Regulations

1. Girls who have reached their thirteenth birthday and boys who have reached their fourteenth birthday, of good health and good character may be received as boarding pupils, provided they are prepared to do the work of the school, which means grades 7 to 11. Children who are not prepared for the seventh grade, positively need not apply. Children under the ages given above, but who are prepared to do the work we offer can be admitted at an additional charge of \$2.50 per month.

2. Those desiring to enter school should fill out application blank and return to the superintendent, with matriculation fee. If the application is not approved, the fee will be returned.

3. Credits from other schools are accepted at the superintendent's discretion. All new pupils should bring with them reports from former schools.

4. Parents wishing their children to leave the Institute at any time other than the beginning of the Christmas vacation or the close of the year in May must notify the superintendent directly, not through the pupil. Such notice must reach the superintendent at least one week before the absence desired, so that the superintendent may communicate with the parents if necessary, before the request is granted.

5. No boarding student will be exempt from attendance as required on Sunday School and church services. Nor from industrial duties except by special arrangement.

6. Girls in the dormitory cannot receive visits or mail from young men except when their parents send to the superintendent written permission for them to do so. All communication with young men must be with the knowledge and consent of both parents and superintendent. No form of written communication with boys or men in or near the school is permitted.

7. No boarding pupil is allowed to leave the Institute grounds at any time without permission of the proper supervisor, except that it is understood the boys may visit town on Saturday afternoon after school, and may go for walks and hikes in groups on Sunday afternoon. In no case is loitering and loafing around streets and stores, permitted.

8. Day pupils are required to be prompt and regular in attendance, and not to loiter on the streets or in the stores on evenings just preceding a school day. It is understood that when on or about the campus they will conform to the same standard of conduct required of boarding pupils.

9. Boarding students are not expected to visit home or friends oftener than once in six weeks unless for urgent cause.

10. In case of expulsion for improper or immoral conduct, money cannot be refunded, as unruly students are expensive at any price and are not wanted. Pupils knowing themselves to be impure, dishonest, or immoral are advised not to come here.

11. Students must pay full value for damage done to property. The cost of breakage in bedrooms must be paid by the occupants equally in cases where the blame cannot be definitely located.

12. The Institute cannot advance money or school supplies, but parents may make deposit with the cashier to be used as needed. Students must not borrow money or clothing from each other.

13. If a student is compelled to be absent for two weeks or more in succession, time will be extended into next semester, if cause of absence is promptly reported to the principal and approved by him.

14. Tuition fees and board are payable on entrance and in advance at the beginning of each term thereafter, for the eighteen weeks, or the remainder thereof unless monthly payments without discounts are preferred. In no case can contracts be made for board for less than a month, and no money can be returned for any departure before the end of the school month. For dates of termination of school months, see calendar.

15. If accounts cannot be paid in full, a note from patron for amount due at 6 per cent interest will be accepted with the approval of the Loan Fund Committee.

16. Music or other "extra" lessons missed through fault of teacher or school will be made up to the student. If missed through fault of student or on account of holidays or examinations, they will not be deducted from bill.

17. All complaints or requests of parents should be sent to the superintendent by separate letter and not in student's letter.

18. Polite conduct is required of every student on all occasions. Development of cultured character is regarded as one of our chief functions.

19. Any student who repeatedly violates any of the above rules, or who shows himself consistently to be out of harmony with the spirit of the Institute, may be asked at any time to sever his connections with the school.

20. Except in case of emergency, do not ask to leave ahead of time for holidays or week ends. If unavoidably detained at home, the pupil must bring a written explanation from home, or no excuse will be granted. An unexcused absence counts 5 per cent against the monthly grade.

21. Failure in any subject for three months in succession means demotion to the next lower grade in that subject. If any pupil fails three months in succession on all his work, he is sent home.

22. It is earnestly urged that if you find it necessary to leave school, you take the matter up with the business office before leaving, in order that the proper adjustment of accounts may be made on our books.

PENALTIES

Penalties are used only as a last resort or in flagrant cases of misconduct. The pupil of right mind and proper training will respond to suggestion, reproof, and correction.

Any penalty assessed is designed to meet the particular situation for which it is assessed. The purpose of punishment is correction, and in some instances, such as damaged property, the recovery of values. Various penalties may be employed, at the discretion of the teacher or supervisor, except that no major penalty may be assessed without the approval of the Superintendent. A major penalty is the assessment of ten or more demerits for one offense.

DEMERITS

Demerits are cumulative. They may be assessed by any teacher or supervisor for misconduct in the class-room or elsewhere, but demerits assessed must be reported weekly to the Superintendent.

When any student accumulates 25 demerits, he is warned in regard to his conduct, and penalties assigned according to the nature of the case.

When a student accumulates 50 demerits, all personal privileges are forfeited for a period of one month, or longer unless his conduct improves. Such privileges include all social contacts with the other sex, permission to visit home or elsewhere, or to leave the campus unless on urgent business, and then only when properly chaperoned. He is also ineligible to hold any special work or scholarship from the school. These places are considered as rewards for merit.

When a student accumulates 75 demerits, he is considered hopelessly out of harmony with the ideals of our institution, and it is suggested that he leave school before it becomes necessary to resort to expulsion. If he prefers to stay and reform his conduct, he has a margin of 25 in his favor, but the accumulation of 100 demerits during one term automatically severs his connection with the school. All demerits above 75 are assessed by majority vote of the faculty.

WHAT THE STUDENT SHOULD BRING

1. REPORT CARD OR RECORD OF PREVIOUS WORK.
2. All personal wearing apparel and toilet articles.
3. Four sheets.
4. REPORT CARD OR RECORD OF PREVIOUS WORK.
5. Umbrella Raincoat, Overcoat.
6. A willing heart and
7. REPORT CARD OR RECORD OF PREVIOUS WORK.

Boarding students are not allowed to keep cars or pets.

Suggestions to Parents

1. Give your children the advantage of an education. This may require a sacrifice on your part, but it will increase the happiness of your children through all their lives, besides multiplying their capacity for usefulness.

2. After they have been placed in school, give them to understand that they must sacrifice enough to remain there faithfully unless real emergency prevents. Success always requires sacrifice.

3. Write at least once a week to your children and have them write to you not less frequently. Loving letters, firm when necessary, but always loving are the inherent right of every child away from home.

4. If your child needs special care or attention in any respect, write to the superintendent about it. If the Institute can undertake to give this special attention, it should be begun early. If it cannot be given, you should know it.

5. Do not make unnecessary special requests, particularly about irregular entrance or departure. One great advantage of boarding school life is the lesson of regularity it inculcates, and this is utterly lost to those who receive special treatment.

If further information is desired, write

J. F. WINTON, Superintendent.

The above record is correct.

Principal.

State briefly your reasons for wishing to get an education:

To Our Former Patrons:

A glance at the schedule of fees would lead one to believe that we have increased them rather sharply. Closer examination will show that such is not the case. There is an increase of one dollar per month in High School tuition, and proportionately in the other departments; this is made necessary by the recent advances in the requirements for teachers as ruled by the State Department of Education. Teachers are required to be better prepared; it follows they are harder to find and cost more.

As to the board, there is also an increase of one dollar per month here. It is necessary in order to continue to operate. Under the old schedule board cost \$13.00 per month plus duty work of \$6.00, or a total of \$19.00 per month. The reduction in hours of duty work from 40 to 20 will of course reduce board only \$3.00 per month, but this reduction in hours is only recommended. Any student so desiring, may upon his own initiative, put in 40 hours as formerly and reduce his board to \$14.00 per month.
